**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Mild and temperatures could reach 17 Celsius in any brighter spells in east, but windy with gusty increases also likely on leeward slopes, bringing buffeting and difficulties maintaining footing.

Forecast for Friday 11 Nov 2022

Weather: Mild again, but a windy and rather dull day with spells of rain and drizzle and areas of low cloud and hill fog, though perhaps a few brighter spells in east.

Maximum wind: Southwest 30 gusts 45mph, but 50 gusts 75 mph over summits

Chance of cloud-free hill tops above 800m: 10%

Low cloud and visibility: Very poor in mostly extensive cloud above 450m, but more broken at times in east and moderate sometimes good visibility beneath cloud.

Temperature: **Valleys:** 13 or 14 C, but 18 C is possible in any breaks in cloud.
At 800m: 10 C
Freezing level: Well above summits
